SPECIAL REQUESTS

• **LA3 West Baton Rouge, LLC (Contracts #20161942-ITE, #20170443-ITE, and #20170504-ITE):**

LA3 has requested an amendment to their Exhibit A as follows:

Section 4.02(B) of the Agreement provides that during each Project Year, the Company shall maintain Required Annual Jobs and Payroll as set forth therein, including 4 Annual Full Time Jobs and \$160,000 in Required Annual Payroll. The Agreement permits the Annual Jobs and Payroll requirements to be achieved through a Qualified Contractor. In 2021 (the first full year of the Agreement and reporting period) the Company provided, through its Qualified Contractor, the following Services to the Project: (i) 4 full time employees of a Qualified Contractor with payroll of \$132,789.00; and (ii) 2 individual independent contractors contracting directly with the Qualified Contractor, with a payroll of \$48,672.00 (for a 2021 total of \$181,461 plus health benefits). Both the full-time employees and the independent contractors were offered the option to participate in health insurance benefits that were similar to other salaried employees of the Qualified Contractor, providing coverage for basic hospital care, physician care, and health care with a value in excess of \$1.25 per hour.

The Company sincerely believes it has complied with the spirit of the Agreement governing the minimum required annual payroll of the Company. However, the Company does find the language of the Agreement to be somewhat unclear as to the exact formal requirements for Jobs and Payroll that must be met under its terms. As such, out of an abundance of caution, the Company respectfully requests an amendment to the Agreement to clarify the language as set forth below and to apply at least for the first Project Year or as the LED otherwise determines appropriate.

In further discussions with the Company, they have also requested that the Board deviate from its usual practice of having Exhibit A amendment be prospective, only, and for the Effective Date of the amended Exhibit A to be January 1, 2018.

Considering these projects had one of the first Exhibit A's, the amended Exhibit A has also been brought up to date with the addition or adjustment of various sections to be current with today's Exhibit A terms and conditions, e.g. reporting deadlines and default payments.

SPECIAL REQUESTS [CONTINUED]

- Sierra Frac Sand, LLC (Application #20180502-ITE):

LED received the attached letter and supporting documentation from Sierra Frac Sand, LLC requesting to amend the ITEP contract project period to commence on 1/1/2023 (instead of 1/1/21).

The Louisiana Constitution Article VII Section Part 2, Section 21(F)

(F) Notwithstanding any contrary provision of this Section, the State Board of Commerce and Industry or its successor, with the approval of the governor, may enter into contracts for the exemption from ad valorem taxes of a new manufacturing establishment or an addition to an existing manufacturing establishment, on such terms and conditions as the board, with the approval of the governor, deems in the best interest of the state.

The exemption shall be for an initial term of no more than five calendar years, and may be renewed for an additional five years. All property exempted shall be listed on the assessment rolls and submitted to the Louisiana Tax Commission or its successor, but no taxes shall be collected thereon during the period of exemption.

§525. Effective Date of Contract; Project Completion Report

A. The owner of a new manufacturing establishment or addition shall document the beginning date of operations and the date that construction is substantially complete. The owner must file that information with the department on the prescribed project completion report form not later than 90 days after the beginning of operations, completion of construction, or receipt of the fully executed contract, whichever occurs last. A project completion report fee of \$250 shall be submitted with the form. The deadline for filing the project completion report may be extended pursuant to §523.

B. The effective date of tax exemption contracts for property located in parishes other than Orleans Parish shall be December 31 of the year in which effective operation began or construction was essentially completed, whichever occurs first. The effective date of tax exemption contracts for property located in Orleans Parish shall be July 31 of the applicable year.

Sierra Frac Sand LLC initially failed to comply with ITEP Rule 503(A) when they filed their Advance Notification **after** beginning its new construction in the state. Rule 503(A) provides, inter alia, that an advance notification of intent to apply for tax exemption shall be filed with the department on the prescribed form **prior to the beginning of construction or installation of facilities on all projects for tax exemption**. Once the Company finally understood that it had violated ITEP Rule 503(A), and it was not going to receive an ITEP tax exemption for its initial investment, the company then filed an Advance Notification for an expansion, which is the ITEP application currently in question.

If Sierra Frac had simply followed the ITEP Rules starting with their initial investment, none of today's issues, (such as the company paying 2 years of taxes under protest and requesting to push back the effective date of the Exhibit A) would be in play. Sierra Frac laid the groundwork for where we are today.

Sierra Frac Sand's request to amend Exhibit-A #20180502 to push back the effective date of the exemption is yet another attempt by the company to fail to comply with ITEP Rules. The Louisiana Constitutional Provision providing, specifically under this scenario, for ITEP Rule 525 dictates the effective date of an exemption, and the exemption starts in the year immediately following the year in which the assets are placed into service, (which in this case the exemption is effective 1/1/2021).

SPECIAL REQUESTS [CONTINUED]

Regardless of what the Tax Commission or an appeals court judgment says, the company will have a 10 year exemption that starts on the Effective Date of 2021 as set by ITEP Rule 525. The Louisiana Constitutional Provision providing for ITEP trumps any statutes, court judgments or other tax rules.

The Board, presumably the locals and the Governor will approve the ITEP Exhibit A/Contract in accordance with the Board's promulgated administrative rules. The Board's rules do and always have operated to have the ITEP applied retroactively, and absent a constitutional amendment or change to ITEP rules, this provision overrides the legislator's or tax commission's action to strip the program of its retroactivity.
